Subject: pilot underwater cap bathy report

Steve and all - I rec'd the pilot cap bathy report and at first glance it looks good...BUT we need to start being a little more careful with our terminology now that the ou3 ri/fs has started. For example the title of the document is currently listed as "Final 2009 Bathymetric Survey of Operable Unit #3". This is incorrect. Its just the bathy of the pilot cap, not the entire 17,000 acre ou3 area. This issue carries thru the entire report.

Easiest thing would be to send me the Word file and I'll make the appropriate edits, and then resubmit.

Thanks - Dave
